About Me

I am computer programmer with hands on experience in application design, development, unit testing and deployment in multinational companies like **TCS, Microsoft** (Client), CMC.

I got excellent communication & leadership skills achieved over period of time from the work and activities I did from my university times, which I am eager to use to create efficient work environment.

Key Highlights & Achievements

- Active participation in Coding challenges, Problem Solving.
- GUI development using **HTML 5, CSS 3**, Bootstrap API, JavaScript - **Angular** JS.
- Native cross platform mobile App development using Xamarin.
- Have achieved Microsoft Certified Professional.
- Have received customer appreciation for providing outstanding contribution for carrying out development, testing and deployment activities of a sprint release of the project.
- Developed Org. level website for parking lot.
- Interned at Novel Research Center Pvt. Ltd. and CMC India.
- Secured 6th rank in state level scholarship test and was appreciated by State Gov.

Skills

Programming Language	C/C++ STL (*proficient*), C# (*proficient*), Core Java, Data Structure
Web Technologies	HTML 5, CSS 3, JavaScript - Angular JS, Asp.NET MVC, WCF, JSON, Azure
App Development	Xamarin (android/ iOS/ windows)
Database	SQL, Mongo DB
Operating System	Windows 7/ 8.1/ 10
Middle Tier	IIS, Entity Framework

Experience

Currently I am working as Application Developer at TCS for Microsoft Client from 28th July, 2014 to till date.

Projects

Application Developer   **Microsoft One-Tax Hub (Tax Domain)**   **Mar'16 - Present**

Tax Data Warehouse: High volume data comes from various systems including Cosmos, SAP are processed on SQL on premise and moved to Azure (in blob & table storage) for Tax audit reporting.

- My Contribution:
  - Successfully delivered 2 major and 1 minor sprint release without any issues/ bugs.
  - Developed and Implemented new feature using Angular JS in application front end.
  - Implemented and on boarded IT-Authorization security check to authenticate and validate users.
  - Ensuring product quality of the entire platform from UI through back-end services.

System Engineer   **Microsoft Integrated Forecasting (Revenue Domain)**   **Nov'14 – Feb'16**

IFT is financial forecasting tool designed to provide a standardized, global tool to forecast Revenue, improve forecasting accuracy, efficiency and visibility into business performance.

- My Contribution:

- o We were only engineering team who developed and deployed 2 major release from offshore without any support from onsite.
- o Implemented and enhanced functionality and made web UI cross browser responsive.
- o Automated the deployment steps to reduce deployment time which used to be a manual & time taking effort.
- o Developed automation suites to generate SQL, run and maintain automated testing suites and report pass/fail results.
- o Developed UI automation suites for integration testing of application.

Asst. System Engineer   **TCS - Fast Quote Auto Insurance**   **Aug'14 – Oct'14**

- My Contribution:
  - o Developed front-end using Bootstrap, JavaScript, jQuery, angular JS and made it cross browser responsive and interactive.
  - o Implemented functionality of Client-Server architecture, data flow diagram in connected and disconnected architecture.

Academic Projects

Programmer   **NIVT India Pvt. Ltd. Kolkata**   **Dec'13 – Jan'14**

Online Web based shopping cart system with payment and checkout option included for users.

- My Contribution:
  - o Involved in front-end design, bug fixing and unit testing.
  - o Designed and built Dash board, at short notice for customer complaint.

Programmer   **Routing and Wavelength Assignment in Translucent Optical Network**   **May'13 – Jul'13**

My Contribution:
This project was aimed to develop an algorithm to find minimal spanning tree in ARPANET and find shortest path from source to destination. This paper was published in IEEE press conference.
Input: 3R regeneration technique, Prim's algorithm, Optical translucent network.
